### Tomah Third Graders Attend Slide Into Safety Event held at the Fairgrounds on May 8th.

Tomah 3rd grade students from Camp Douglas, Tomah's Montessori School, Lemonweir and Miller, along with 3rd graders from other districts, had a unique opportunity to participate in an engaging safety event designed to mix fun with learning.

The Slide Into Safety event, organized by the Monroe County Health Department in conjunction with Gundersen Health System, aimed to teach children essential safety skills in a lively and interactive manner, and was able to successfully educate over 300 third grade students on 12 different safety topics including playground safety, pool safety, and boating safety.

Throughout the day, the students cycled through the various stations, each focusing on different aspects of safety. In addition to these practical lessons, the event included plenty of fun activities to keep the young attendees engaged.

TASD sent our school nurses and our school social worker to host a station where students discussed first aid kits and had the opportunity to make their own first aid kit to take home as well as receive a coloring sheet related to first aid and crayons. The event was an effective blend of education and entertainment and was a resounding success, leaving the third graders better prepared to handle various safety situations while having enjoyed a fun-filled day.
