

TOMAH AREA SCHOOL DISTRICT
TOMAH, WISCONSIN
Bray Project No. 3672

Monday | November 13, 2023

Staff Survey Feedback: District-wide

Survey Questions

- Consider/List a minimum of three facility improvements that would most benefit the students of your school. This could be educationally, co-curricular activities, or from the student life/experience perspective. If it is easier think about this in the inverse - what do your current facilities do that limit these three components of a student experience.
- Consider/List a minimum of three classroom (or learning space if you are a specialist) related improvements that would enhance your ability to deliver an even better educational experience.
- Consider/List a minimum of three things beyond your classroom (or learning space) that would enhance your ability to deliver an even better educational experience.
- Are there academic or co-curricular programs you cannot offer because of the current facility?

TOMAH HIGH SCHOOL

- More electrical outlets
- Temperature control
- More meeting spaces
- Tech Ed Lab Space
- Agriculture Lab + Greenhouse
- Break out spaces
- Swimming Pool
